Come to this public meeting and learn more about AES, the Automated Export System. We'll explain what it is, and why you should get on board. We'll even show you how many of your competitors are taking business away from you because they are already using AES.

This meeting is intended for companies who aren't yet using AES or AESDirect. If you're already on board with AES, come to our first Users Meeting on the West Coast. It'll be the next day, September 14, from 8:30am -noon at the Port of Los Angeles in San Pedro, California.

AES has modernized export reporting by virtually guaranteeing compliance, reducing costs, and speeding the process of exporting. AES is important to you and the future of your exporting business.

- ☐ A live demonstration of the Census Bureau's free [www.AESDirect.gov](http://www.AESDirect.gov)
- ☐ The current status of AES, and planned enhancements
